

PETITION TO SUPPORT THE DOMES

By signing below, you agree to have your name and affiliation used as a supporter of the Domes' student-led plan to stay on the land. Your address will be used for verification purposes only.

The Domes is a Davis landmark, a vibrant community, and a hub for social and environmental innovation at UC Davis. With a nearly 40-year history of sustainability, participatory democracy, and cooperation, the Domes is a valuable treasure to UC Davis, the state of California, and the global community that must not be destroyed.

For these reason, we, the undersigned, support residents' desire to stay on the historic site, cultivating their gardens, maintaining their homes, and nurturing their community.

We urge UC Davis to work with the affordable plan developed by a coalition of students, faculty, and community leaders to strengthen the Domes community and property through a 3rd party, nonprofit manager.
